

Differential Temperature Controller  
with Data Logging

# Thermok Logger

Optional live data  
to Internet

**Temperature Sensor Locations**

- T1 Collector Out
- T2 Collector In or Outdoor Ambient
- T3 Top of Tank
- T4 Bottom of Tank

The control panel features a digital display showing four temperature readings: 1: 65.6, 2: 43.4, 3: 148.4°, and 4: 111.1F. Below the display are three green indicator lights and a central 'SELECT' button. A 'Secure Digital™' card slot is located below the buttons, with instructions to 'Press inwards to remove card'. The website 'www.aprsworld.com' is printed at the bottom of the panel.
